교수목표 (Course Objectives)	Upon completion of this course, the student should be able to: 1. Describe pharmacy as a profession. 2. Describe the concept of patient-centered pharmaceutical care. 3. Describe legal & ethical issues in pharmacy practice. 4. Define professionalism and list its characteristics in pharmacy practice.				
강의개요 (Course Description)	This course is designed to provide the basis for beginning pharmacy students to develop an accurate and clear perspective on the pharmacy profession. This focuses on the core concepts of pharmacy practice, including the current and future roles and responsibilities of the pharmacist, patient-centered pharmaceutical care, communication skills, professionalism, and other critical legal and ethical issues that pharmacists confront in their daily practice. This presents a theoretical framework on which the student can develop professional competence as a future pharmacist.
